### December Hamgram brings raves from club members

By Les, KØBAD

At a recent Saturday breakfast, Gary, NØOWS, commented on the December Hamgram. He noted that it was one of the best issues ever. I was unable to attend the December meeting, but Gary said that he also complimented the Hamgram at that time. Other club members who were at the breakfast appeared to agree with Gary. I went back to look at that issue to see just what made it so special. The answer was immediately obvious... **You club members made the issue special.**

In that issue was an excellent article with photos by Jim, KBØTHN. Jim's Solar Toolbox represents an excellent alternative and emergency energy source for amateur radio equipment. Matt, KFØQ discussed his contest activities in November Sweepstakes. That article, too, came with a nice picture. The issue was rounded out with the Club Meeting Minutes, the Treasurer's Report, the Holiday Party Announcement, and the Auction Announcement. How could it not be an interesting and informative issue? All issues can't be that good, but we do get gems like the December issue every once in a while. Thanks for your help.

### Next Month

Watch for the following in the February issue of *Hamgram*:

- Talking to SunSat, by Jim, KBØTHN. Jim will again have an interesting and informative article.
- The December club election results, which may have been delayed by a recount.

Clare, KØNY, rattles off SSB contacts during the November Sweepstakes contest.
